

Technology-Based Clinical Supervision

Learning Activity Week 6

- 1) Begin to consider the following questions in your own practice and be prepared to discuss at our next session.**
 - a) What is your next step in the process of supervising utilizing some of the things that you have learned in this series?
 - b) What are the challenges that you might face?
 - c) How will you address these challenges?
 - d) What will you need to do to implement some of these ideas?

- 2) What are some ‘Hot Topics’ that may affect this approach?**

- 3) Are there challenges that others have expressed about using technology in this process of clinical supervision or in our service delivery?**

Please bring these to the group to discuss in our next session
