

ASAM Integration: Six Dimensional Assessment through the Continuum of Care (ASAM-I)

Learning Activity Week 2

Case Scenario using 6 Dimensional Template

1) Reading

- a) ASAM Chapters 4 & 5

2) Case Study Activity

Utilizing the 6 Dimensional Assessment Template provided, review the responses to your 6 Dimensional questions and complete the following:

- a) Apply the ASAM 0-4 Risk Rating Scale per Dimension in the section provided on the template
- b) Apply an overall Risk Rating (low, moderate, high) in the section provided on the template
- c) Develop a Level of Care Recommendation in the section provided
- d) Generate and prioritize a problem list per Dimension on the last page of the template

Be prepared to present your case findings during the Week 3 session.
