Goal

To provide adult learners with a *respectful, relevant and responsive* virtual learning environment, where they are guided to:

- 1) reflect on their training skills, attitudes, and practice;
- 2) build and refine the *skills essential to promote effective digital learning* and
- 3) give and receive feedback that is strengths based & develops technology/facilitation competencies.

Structure

- Zoom classroom sessions.
- Practice & Feedback Labs.

Suggested Guidelines

- Safety first
- We're all adult learners
- All experience & contributions have value
- Listen/Respect
- Jump in
- Perfection NOT expected/required
- You control your risk level
- Focus on strengths
- With permission, offer growth opportunity
- What else?
